ABOUT US

TradeX 3.0 Inc Limited, headquartered in the USA, is a forward-thinking fintech company dedicated to transforming the trading experience through advanced automation and artificial intelligence. We specialize in AI-powered trading solutions that are designed to generate consistent returns, simplify investment decisions, and provide accessible wealth-building opportunities for users across the globe.

At the heart of our platform is the X3.0 Trading Bot, a proprietary algorithm developed by financial and tech experts to deliver optimized daily performance ranging from 1.5% to 5%. With user-friendly onboarding, secure USDT-based transactions, and automated risk management, TradeX 3.0 empowers individuals to participate confidently in global financial markets without the need for deep technical knowledge or constant monitoring.

We believe in transparency, innovation, and empowering people with intelligent tools that work for them—24/7.

STRATEGIES & RISK MANAGEMENT

Next-Level Trading

COMMON FOREX TRADING STRATEGIES

Day Trading: Multiple trades within a day, targeting small price movements. Market cap is less important.

Swing Trading: Positions held for days to weeks to capture larger price moves using trend analysis.

Scalping: Very short-term trades for small profits, focusing on high volatility, low market cap currencies, and technical analysis.

RISK MANAGEMENT

Market Cap Analysis: Higher market cap currencies (e.g., USD, EUR) are less volatile and safer for beginners. Lower cap currencies (e.g., exotic pairs) are more volatile but offer higher rewards.

Stop-Losses: Limit potential losses by setting a maximum loss limit on trades.

Leverage: Use cautiously, as high leverage can amplify both profits and losses.

Diversification: Trade multiple currency pairs across different markets to reduce risk.

WHAT IS FOREX?

When you Exchange your Currency to any Other Currency, Such as Dollar, Euro, Pounds.

That is called Forex Exchange

Forex, short for "foreign exchange," refers to the global marketplace where currencies are traded against each other. It is the world's largest and most liquid financial market. In the forex market, participants exchange one currency for another at an agreed-upon exchange rate. This exchange rate determines how much of one currency is needed to purchase a certain amount of another currency.
